# The Freeplay Sherpa Xray LED Self-Sufficient Flashlight

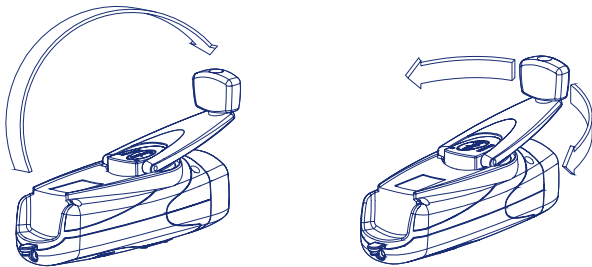

The Freeplay Sherpa Xray LED Flashlight introduces a new level of dependability to the Sherpa range. Incorporating failsafe Freeplay wind-up technology, together with the reliability of ultra-bright white Light Emitting Diodes (LEDs), the Sherpa Xray LED provides excellent brightness and shine time with the peace of mind of never needing to ever replace the batteries or bulb. The Sherpa Xray LED is a compact, rugged flashlight ideal for both every day and emergency use.

Designed to be a serious tool, the wind-up system offers maximum dependability for those times when you can't afford to be left in the dark by dead batteries. A quick wind (about 30 seconds) gives approximately 20 minutes of light on normal beam and you can rewind at any time for as much shine-time as you want. An LED charge level indicator tells you the optimal winding speed.

Fully charged, the flashlight provides 3 hours 20 minutes of ultra bright light, and 20 hours of normal light, using an array of high-efficiency, solid-state, ultra bright white LEDs. Internal mechanical components are specified to industrial standards for repeated use and long life.

The Freeplay Sherpa Xray LED, incorporating Freeplay's self-sufficient energy technology, is the most compact, dependable flashlight on the market. AC/DC adapter included.

With the Freeplay Sherpa Xray LED, you've got light anytime, anywhere.

Fold handle out fully and wind in a clockwise or anticlockwise direction for fail-safe light anytime, anywhere.

*Power Source:*

*Wind up:* AC alternator driven by the crank via a transmission

*Charging Adapter:* 6 V 100 mA AC/DC adapter (1.2mm centre pin positive jack)

*Rechargeable Battery:* Non-removable rechargeable 3.6 V Ni-MH battery pack.

*Light Source:*  
5mm Ultra Bright white LED cluster

*Shine Time:*  
Fully recharged battery - 20 hours (normal beam)  
Fully recharged battery - 3 hours 20 minutes (ultra-bright)  
30-second wind - 20 minutes (normal beam)

*Adapter Charge rate:*  
24 hours - 100% capacity

*Dimensions:*  
Metric mm (Imperial inches)  
Height 55 (2.1) Width 60 (2.4)  
Length 160 (6.3) Weight 370g (13 oz)

*Packaging dimensions:*
