Product Summary

The MidNite Solar Surge Protector Device (MNSPD-115) is a Type 1 device per UL1449 rev3. It is designed for both AC and DC systems and provides protection to service panels, load centres or where the SPD is directly connected to the electronic device requiring protection. 115V model.

Product Description

The MNSPD is offered in three different voltages to maximize the required protection level. Protection is achieved by reducing the clamping voltage to a safe level that your system can sustain without damaging any electronics in the system. The MNSPD is designed to clamp a 115,000 amp surge! Blue LED's provide visual indication of operation from a distance.

The MidNite Solar Surge Protector Device (MNSPD-115) is a Type 1 device per UL1449 rev3. It is designed for both AC and DC systems and provides protection to service panels, load centers or where the SPD is directly connected to the electronic device requiring protection.

MNSPD-115 Features & Specifications...
