Product Summary

The MPPT Control lets you see the status as well as setup all BlueSolar MPPT Charge Controllers that have a VE.Direct communications port. The new MPPT Control is mounted in the familiar BMV-700 series housing, maintaining a consistent and professional look to your panels and systems monitoring equipment.

Product Description

The MPPT Control lets you see the status as well as setup all BlueSolar MPPT Charge Controllers that have a VE.Direct communications port. The new MPPT Control is mounted in the familiar BMV-700 series housing, maintaining a consistent and professional look to your panels and systems monitoring equipment.

Can also be used with SmartSolar MPPT controllers - useful on the smaller models that lack a digital display option.

See the user and installation manual as well as Victron's [blog post](#) for more information.

To easily mount on a wall, instead of flush mounted in a panel, use one of our wall mount enclosures. See the related products slider below.
