

# Outback 2000NC EnergyCell® NC High Capacity Battery System

Price: CAD \$36,185.00

**SKU:** OPEC2000NC

**Product Categories:** [Lead Acid : Flooded \(FLA\)](#), [Batteries](#), [Supply](#)

**Product Tags:** [2000](#), [2000nc](#), [canada](#), [energy cell](#), [energycell](#), [nano carbon](#), [outback](#), [outback 2000nc](#), [outback 2000nc canada](#), [outback power](#)

## Product Summary

Outback 2000NC EnergyCell® NC High Capacity Battery System, 48V Partial State of Charge (PSoC) Energy Storage Technology. The EnergyCell Nano-Carbon High Capacity battery line provides an ideal solution for larger applications where limited

sun hours are available for proper recharging of standard deep cycle batteries.

## Product Description

Outback 2000NC EnergyCell® NC High Capacity Battery System, 48V Partial State of Charge (PSoC) Energy Storage Technology. The EnergyCell Nano-Carbon High Capacity battery line provides an ideal solution for larger applications where limited sun hours are available for proper recharging of standard deep cycle batteries.

The Nano-Carbon is an enhanced and optimized negative active material formulation

which makes it more than just a carbon additive. The high surface area carbon is a specially formulated additive for improving the negative active material in lead-acid batteries. Carbon increases conductivity and adds additional capacitance to the battery. Nano-Carbon improves charge efficiency and allows PSoC operation with improved deep discharge recovery.

The included pre-assembled steel racking system allows for ease of installation with a small footprint and front access to all cell connections.

Outback 2000NC Highlights...

- ☑ Ideal for Large Residential and Commercial Self-Consumption Applications
- Up to 44% improved Cycle Life vs Traditional VRLA Batteries - Up to 95% Round-Trip Efficiency - 3-year Full Replacement warranty

Outback 2000NC Specifications Brief...

Cell Technology : VRLA-AGM Carbon

48V Cell Configuration : 4x6

Cycle Life (50% DOD) : 2,000

AHr Capacity : C/24 1.75VPC: 1740 | C/100 1.75VPC: 1990

Energy Storage per Cell (kWhr) : C/24: 3.48 | C/100: 3.98

- Total Bank Energy Storage (kWhr @ C/100) : 95.52

Dimensions LxWxH (inches / cm) : 26.38 x 28.25 x 77.28 / 67.0 x 71.8 x 196.3

Weight (lbs/Kg) : 5,365 / 2,434
