Product Summary

Powerfilm's WeatherPro Series 7.2V solar module. Paper thin, and encapsulated for more ruggedized needs & weatherproof service. Power your 7.2V devices, or step-down to charge 5V USB battery packs. Easy-to-solder leads makes wiring in series or parallel a simple task.

Product Description

Powerfilm's WeatherPro Series 7.2V solar module. Paper thin, and encapsulated for

more ruggedized needs & weatherproof service. Power your 7.2V devices, or step-down to charge 5V USB battery packs. Easy-to-solder leads makes wiring in series or parallel a simple task.

Powerfilm P7.2-150 Specifications...

Operating Voltage: 7.2

Wattage: 1.44

Current: 200

Typ Voc: 10.5V

Typ Isc: 250mA

Typ Output @ AM 1.5: 220mA @ 7.2V

Width (mm): 270 mm

Length (mm): 175 mm

Width (in): 10.63 in

Length (in): 6.89 in

Weight (kg): 54.9 g

Weight (lb): 1.9 oz

Total Thickness (mm): 1.12mm

PowerFilm® WeatherPro Series

The PowerFilm® WeatherPro Series is the perfect choice for permanent outdoor applications that are directly exposed to the elements. The especially rugged construction of these PowerFilm® modules includes a UV-stabilized surface, extra edge seal for weather protection, and tin-coated copper leads that extend from the module. Coating the leads with an RTV silicon compound can provide a tightly sealed package.
