Product Summary

Powerfilm's WeatherPro Series 15.4V solar module. Paper thin, and encapsulated for more ruggedized needs & weatherproof service. Power just about any device via external solar storage batteries to traditional SLA batteries. Easy-to-solder leads makes wiring in series or parallel a simple task.

Product Description

Powerfilm's WeatherPro Series 15.4V solar module. Paper thin, and encapsulated for more ruggedized needs & weatherproof service. Power just about any device via external solar storage batteries to traditional SLA batteries. Easy-to-solder leads makes wiring in series or parallel a simple task.

Specifications...

Operating Voltage: 15.4

Wattage: .77

Current: 50

Typ Voc: 19V

Typ Isc: 60mA

Typ Output @ AM 1.5: 55mA @ 15.4V

Width (mm): 90 mm

Length (mm): 270 mm

Width (in): 3.54 in

Length (in): 10.63 in

Weight (kg): 31.8 g

Weight (lb): 1.1 oz

Total Thickness (mm): 1.12mm

PowerFilm® WeatherPro Series

The PowerFilm® WeatherPro Series is the perfect choice for permanent outdoor applications that are directly exposed to the elements. The especially rugged construction of these PowerFilm® modules includes a UV-stabilized surface, extra edge seal for weather protection, and tin-coated copper leads that extend from the module. Coating the leads with an RTV silicon compound can provide a tightly sealed package.

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 0.05 kg
