Product Summary

The Secur 7 Watt folding USB solar charger features Smart Chip Technology - an ingenious innovation that permits the charging of iPhones, iPads, and other fussy USB devices direct from the solar panel without any intermediary battery! Built-in USB port accepts your USB device's sync/charge cable.

Product Description

Secur has solved a USB solar charger issue: How to charge an iPhone from a solar panel without an intermediary battery pack. Smartphones & tablets are fussy, and unless they see a minimum amount of power at the source, they will ignore it.

Compact Folding 7 watt Solar Panel with Smart Chip Technology - Charge smart phones directly including iPhone 5 and iPad without an intermediate battery. Charge any USB digital devices or batteries directly – cell phone, smart phones, tablets, iPods, GPS, cameras, radios, portable batteries. Built-in Female USB plug. These light weight folding solder panels are the perfect solution for charging digital devices on the go. Includes a water resistant pouch with built-in USB port to hold your digital device or battery.

Secur Solar panels include Smart Chip technology that controls voltage levels so you can charge all digital devices directly – including iPhone 5 and iPads. On cloudy days the solar energy charging voltage will vary and some devices such as iPhone and iPad will automatically stop charging and will not resume when the power comes back. Our built-in smart chip automatically controls start function with software and keeps charging all day long.

SECUR 7W DETAILED FEATURES:

- Monocrystalline solar panels
- Smart chip technology to control voltage levels

and allow direct charging of any digital device

- including iPhone 5 and iPads
- Lightweight and durable
- no breakable glass covers
- Built-in female USB port
- Durable sun-proof UVB protective material
- Water resistant and built to travel
- Enclosed water-resistant pouch for digital

devices or batteries

- Compatible with all Secur USB devices

for lighting, emergency radios,

cell phone chargers

SECUR 7W TECHNICAL SPECIFICATIONS:

- Solar Panel – Monocrystalline - 6.5V/7W
- Built-in smart chip for iPhone and iPad
- High output for charging iPad
- 2 Solar Panels
- Maximum USB Output: 5V/1,100mA
- Folded Size – 24.1x17.8cm / 9.5" x 7"
- Unfolded Size – 47.6x45.7cm / 18.75" x 18"
- 454g / 16 oz

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 0.8 kg
