Product Summary

A virtually unbreakable solar battery charger for RVs, boats, work trucks and long-haul trailers and sleeper cabs. These solar panels are designed to provide a powerful charging solution for batteries and conform to almost any surface.

Product Description

The Go Power! Solar Flex 30 Kit uses Solar Flex™ panels that are aerodynamic and DURABLE. A virtually unbreakable solar battery charger for RVs, boats, work trucks and long-haul trailers and sleeper cabs. These solar panels are designed to provide a powerful charging solution for batteries and conform to almost any surface.

Unlike other 'flexible' products, Solar Flex™ uses high-efficiency monocrystalline cells that produce more power per square foot than any other flexible panel on the market.

Solar Flex 30 Kit Features...

An impermeable lamination coats the entire module, allowing it to contour and flex against curved areas, eliminating any need for custom mounts. The panel can be affixed by adhesive or screw mounting options and grommets are an added bonus for ease-of-installation. The thin, lightweight module can also be sewn into canvas, making it a truly versatile solar module.

- Avoids custom mounts (modules curves up to 30 degrees) - Can be affixed with adhesive or screws - Provides a durable surface (module is less than 1/8" / 3mm thick) - Is ideal for lightweight RVs (modules are 82% lighter)

Solar Flex 30 Solar Module Specifications...

Model : GP-FLEX-30

Output Power : 30W

Rated Charging Current : 1.7A

Voc : 21.2V DC

Solar Cell : Flexible, Back-contact monocrystalline

Framing : None

Installation : Penetrating & adhesive roof mount options

Solar Controller : 10A PWM

Expansion : n/a

In The Box : 2x 25' #10AWG output cable with MC4 connectors, mounting hardware

Dimensions : 21.1 x 15.25 x 0.1" / 53.7 x 38.8 x 0.3 cm

Weight : 1.1 lb / 0.49 kg

Output Warranty : 10 Years

Solar Controller Warranty : 5 Years

Product Attributes

- Dimensions: 1 × 1 × 1 cm
- Weight: 2.9 kg
