### Product Summary

Forget the extra battery. Charge your USB device directly from the sun!

Plug in your phone, tablet, drone, camera, or any other USB device like you do with any other USB port, and you convert the sun's fusion reactor into your own personal USB charger.

9Watt model.

### Product Description

Forget the extra battery. Charge your USB device directly from the sun!

Plug in your phone, tablet, drone, camera, or any other USB device like you do with any other USB port, and you convert the sun's fusion reactor into your own personal USB charger.

This high performance 9 Watt solar panel will support high drain USB devices directly from its universal USB port. All you need is a little daylight!

Stronger daylight means faster charging!

Is it quality? How about IPX7 waterproof rating, scratch- and UV resistant, and high-efficiency monocrystalline cells.

Stellar USB 9 Specifications...

**Size and Weight** - 360g (12.75oz) - 220 x 255 x 5mm (8.7 x 10.1 x 0.2 in) **Solar Module** - Monocrystalline cells - 19% efficient - Open Circuit Voltage: 7.0V - Peak Voltage: 6.0V - Peak Current: 1500mA - Peak Power: 9.0 Watts **Construction** - Urethane coating - 3mm Aluminum/Plastic composite substrate **Mounting and Cables** - Four screws on back corners of panel allow multiple mounting options for straps, bags, paniers, and more.

Output cable is 8.5 inches, 22cm long and terminates with a 3.5x1.1mm plug connected to a universal USB port. Need more cable? Add this [4'](#) or [10'](#) extension.

**Apple compatible**
