Product Summary

Voltaic's very popular solar charger case that features a universal attachment system that mounts it in seconds to backpacks, bicycles or wherever solar power is needed. The Fuse 6W Solar Charger is a lightweight and powerful solar charger for tablets, smartphones, & digital cameras.

Product Description

Voltaic's very popular Fuse 6W solar charger case is one of those products that simply got the design right. The Voltaic Fuse 6W is a 6 Watt solar charger with on-board power storage that handles all your USB devices & phones. The slim case features a universal attachment system that mounts it in seconds to backpacks, bicycles or wherever solar power is needed. The Fuse 6W Solar Charger is a lightweight and powerful solar charger for tablets, smartphones, & digital cameras.

Discontinued in 2019 by Voltaic Systems.

They've moved on with their [Fuse 9W\]](#) (USB)
and the even more powerful [Fuse 10W\]](#) (multi-voltage)

Any USB device can be plugged into the Voltaic Fuse 6W case & charged at a normal rate regardless of what the sun is doing from moment to moment. The Fuse 6W's internal battery pack collects & stores any available solar power and delivers what your device needs any time of the day or night.

dSLR cameras can be connected directly via USB, or charge their batteries directly using one of the [USB battery chargers](#) we carry, like the [Ansmann PL Vario](#).

The Voltaic Fuse 6W Solar Case...

6 Watts of Rugged Solar...

6 watt solar panel generates power in sunlight.

The panels are waterproof, lightweight, and built to withstand abuse.

Power: 6 watts total peak output at 6 Volts

Charge times: Under 4 hours in the sun fully charges a typical smartphone, 1 hour provides about 2 hours of talk time.

V15 Universal USB Battery on board...

Included battery charges efficiently from solar and stores power for use anytime. When not in the sun, it can be charged using the USB Power Cable or optional AC travel charger or DC car charger, making it just as useful on the grid as off. Charge devices from the USB Port using your own cable or the included Micro USB and Mini USB adapters.

- Capacity: 4,000 mAh, 15 Wh - Output: 5 V, 1000 mA - Input: 5-6 V, 1000 mA -
- Maximum Output Power: 5 Watts - Charge Time: In direct sun, fully charges in

4 hours from 6 Watts of solar panels. Can also be charged using any USB port or optional DC or AC chargers - Battery Type: Lithium Polymer - Protection: Short Circuit, Over Charge, Over Discharge, Over Current, Over Temperature - Charge Display: LEDs light sequentially when charging. - Capacity Display: 1 flashing LED 0%, 1 LED <33%, 2 LEDs 33-66%, 3 LEDs 66-95%, 4 LEDs 95%+ full

Compatibility...

Voltaic chargers are designed as universal chargers so there are very few USB devices which are not compatible. The Voltaic Fuse 6W is compatible with all smartphones.

If you have a question about compatibility with your device or expected charge times, please [contact us](#).
